18 Experience & Projects
19 -----
20 -> BASF, Senior Backend Engineer (June 2022 - Currently)
21 ++ Senior Backend Engineer for BASF, in the D'Lite Project. D'Lite is an impressive
22 service provided by BASF for the most important cosmetics/healthcare companies in the
23 world.
24 ++ We use a lot of interesting technologies, but the most important ones are: Java,
25 Springboot, Azure Cognitive Search, Docker, Kubernetes, Azure pipelines, Helm, Bamboo,
26 git, SonarQube or PostgreSQL.
27
28 -> Neo9, Senior Software Engineer (December 2021 - June 2022)
29 ++ Senior software engineer, and using an agile methodology, we realized the analysis
30 and development of several insurance portals (frontend) and their related microservices
31 (backend) for AON Corporation.
32 ++ The technologies or tools I used were Java (8-11), Spring Boot, Angular, MongoDB,
33 Docker, Kubernetes, Jenkins, Kibana, Git, GitLab, Jira, Confluence, etc.
34
35 -> Dimensiona, Senior FullStack Developer (Mar 2019 - Dec 2021)
36 ++ Senior Developer at Situm Technologies Project (2019 - 2021) I worked as an external
37 developer integrated into client's development team.
38 ++ I worked both in backend (my speciality) and frontend with an agile methodology.
39 ++ I used the following technologies or tools: Java (Spring boot, Spring MVC,
40 Hibernate), Ruby on Rails, Javascript/JQuery, REST, ReactJS, PostgreSQL, MongoDB, GIT,
41 Docker, Kubernetes, DevOps. Bitbucket, SCRUM and JIRA.
42
43 -> Dimensiona, Junior/Middle/Senior FullStack Developer (Jul 2015 - Jul 2019)
44 ++ Senior Developer, facing a huge project: R Telecommunications (Galician's most
45 important ISP). (2015 - 2019).
46 ++ I worked as one of the main developers, migrating existing web applications,
47 developing new ones and maintaining the entire application.
48 ++ The development was both backend and frontend. The technologies or tools used where:
49 Java, axis2, SOAP, JSP, Javascript/Jquery, Bootstrap, Oracle, Jenkins or Subversion.
50
51 -> viewNext, Junior Developer (Sep 2014 - Jul 2015)
52 ++ ViewNext is a software department from IBM, and using IBM's proprietary technologies:
53 RAD and BTT.
54 ++ I developed desktop and web applications for Banco Popular, a big Spanish bank, and
55 its subsidiaries (Banco Pastor, TargoBank, Banco Espírito Santo, etc.).
