Hey! This CV was autogenerated using my CvGenerator application, which can be found on my GitHub repository.

Carlos Jaime Puente Sánchez

Hello! My name is Carlos, and I am a dedicated software developer with a specialization in Backend development.

Currently, I work as a Senior Software Backend Engineer for BASF, where I contribute to the innovative D'lite Asia Project. This project offers exceptional services to some of the most prominent cosmetics and healthcare companies worldwide. With a strong background in software engineering, I bring a wealth of experience in designing and developing robust backend systems. I am proficient in a variety of programming languages and frameworks, allowing me to create efficient and scalable solutions that meet the unique needs of the industry.

Throughout my career, I demonstrate a strong commitment to delivering high-quality work and collaborating effectively with cross-functional teams. I constantly stay updated with the latest industry trends and technologies to ensure that I can contribute to the success of any project I undertake.

Experience

Senior Backend Engineer

June 2022 - Currently | Frank Technology Consulting (Madrid, Spain, Full remote) | Client: BASF

Tech stack: Azure Cloud, Azure Cognitive Search, Azure DevOps, Bamboo, Bitbucket, Confluence, Docker, Git, Helm, Hibernate, JUnit, Java, Jira, Kubernetes, Maven, Microservices, Microsoft Teams, Mockito, MockServer, PostgreSQL, Postman Tests, Scrum, ServiceBus, SonarQube, Spring Boot, REST, Terraform.

As a Senior Backend Engineer at BASF, I play a vital role in designing and developing robust backend systems for the Dlite Project.

Collaborating with a skilled team, I contribute to efficient, scalable, and high-performance solutions throughout the software development life cycle.

With excellent problem-solving skills and a deep understanding of the cosmetics and healthcare industries, I consistently deliver high-quality code to ensure the reliability and security of the backend systems. I stay up-to-date with the latest technologies and trends, incorporating innovative solutions to enhance the functionality and user experience of the Dlite service. Working seamlessly within a team, I foster a collaborative and productive work environment.

Senior FullStack Engineer

December 2021 - June 2022 | Neo9 (Madrid, Spain, Full remote) | Client: AON Corporation

Tech stack: Angular, AWS, Confluence, Docker, Git, GitLab, Gradle, Helm, Hibernate, Java, Jenkins, Jira, JUnit, Kibana, Kafka, Kubernetes, Maven, Microservices, Mockito, MockServer, MongoDB, PostgreSQL, Postman Tests, RabbitMQ, Scrum, SonarQube, Spring Boot, REST, Redmine, Slack, Trello, Typescript.

As a Senior Software Engineer at AON Corporation, I developed insurance websites and its microservices.

I collaborated effectively with diverse stakeholders, demonstrated strong problem-solving skills and attention to detail, and implemented best practices to ensure the reliability, performance, and security of our applications. Overall, my experience equipped me with a comprehensive skill set in frontend and backend development, utilizing modern technologies and working in an agile environment, making me a valuable asset to any software development team.

Senior FullStack Developer

March 2019 - December 2021 | Dimensiona (Santiago de Compostela, Spain, Hybrid) | Client: Situm Technologies

Tech stack: AWS, Azure DevOps, Bitbucket, Confluence, Cypress.io, Docker, Git, Google Maps, Gradle, Hibernate, JUnit, Java, Jenkins, Jira, Kafka, Kibana, Kubernetes, Leaflet, MapBox, Maven, Microservices, Microsoft Teams, Mockito, MockServer, MongoDB, OpenWiki, PostgreSQL, RabbitMQ, Redmine, React, Ruby on Rails, Scrum, Slack, SonarQube, Spring Boot, Trello, Typescript.

As a Senior FullStack Developer at Situm Technologies Project, I played a crucial role in the successful delivery of their indoor positioning platform, utilizing my expertise in both backend and frontend development. I actively participated in code reviews, testing, and adhered to best practices and coding standards. Working collaboratively with the client's development team, I effectively communicated and demonstrated strong problem-solving skills to deliver high-quality code within project timelines.

My comprehensive skill set and ability to work seamlessly within client's development teams make me a valuable asset to any software development project.

Junior & Senior FullStack Developer

July 2015 - July 2019 | Dimensiona (Santiago de Compostela, Spain, In-office) | Client: R Telecommunications

Tech stack: axis2, Bootstrap, Hibernate, Java, Javascript, Jenkins, JPA, jQuery, JSP, Maven, Mantis Bug Tracker, MySQL, OpenWiki, Oracle, REST, SOAP, Spring MVC, Subversion, Microservices.

As a Senior Developer for R Telecommunications, I played a key role in migrating existing web applications, developing new ones, and maintaining the entire application. My responsibilities went beyond coding, including analyzing requirements, designing solutions, and conducting thorough testing.

Working closely with cross-functional teams, I implemented best practices and maintained high standards of code quality. My experience equipped me with a comprehensive skill set in both backend and frontend development, making me an expert in delivering high-quality solutions for complex projects.

Junior Developer

September 2014 - July 2015 | ViewNext (Ourense, Spain, In-office) | Client: Banco Popular

Tech stack: Bank industry, BTT, CA Harvest SCM, IBM, RAD, Javascript.

As a software developer at ViewNext within IBM, I gained extensive experience using IBM's proprietary technologies. I played a key role in developing desktop and web applications for Banco Popular and its subsidiaries, honing my skills in creating efficient and user-friendly software solutions for the banking industry.

Education

Master's degree

Rioja University | 2021

Teacher training in obligatory Secondary and Upper Secondary School Education, Vocational Training and languages (technology and IT specialty).

Engineer's degree

Vigo University | 2013

Engineering degree in Computer Management.

Vocational Training

IES Antón Losada | 2006

Technician in Computer Systems Administration.

Vocational Training

IES San Clemente | Currently (3 subjects remaining)

Technician in computer applications development.

Relevant Tech. Stack

Backend

Hibernate: aprox. 9 years of experience.

Java: aprox. 9 years of experience.

Kafka: aprox. 3 years of experience.

RabbitMQ: aprox. 3 years of experience.

Ruby on Rails: aprox. 2 years of experience.

ServiceBus: aprox. 2 years of experience.

Spring Boot: aprox. 5 years of experience.

Spring MVC: aprox. 4 years of experience.

Frontend

Angular: aprox. 1 years of experience.

Cypress.io: aprox. 2 years of experience.

React: aprox. 2 years of experience.

Databases

Azure Cognitive Search: aprox. 2 years of experience.

MongoDB: aprox. 3 years of experience.

MySQL: aprox. 4 years of experience.

Oracle: aprox. 4 years of experience.

PostgreSQL: aprox. 5 years of experience.

Soft skills

I possess strong soft skills in communication, teamwork, creativity, problem-solving, leadership, organization, and adaptability. With effective communication, I convey information clearly and listen attentively. I excel in collaborating with others and thrive in group settings. I offer innovative solutions and can think outside the box. With strong problem-solving skills, I analyze complex situations and provide effective solutions. I exhibit leadership qualities and can motivate and inspire others. Additionally, I am highly organized, able to manage tasks efficiently.

Formation

Rioja University | 2021 (25 hours)

University Course in Workspace, Chromebooks and Teams for Education

CNTG | 2018 (45 hours)

Application Development with Liferay

CPETIG | 2013 (10 hours)

Expertise and computer forensics

Languages

English | Level: Upper Intermediate

Currently preparing C1 certification

Working using English since 2021.

Spanish | Level: Native

Galician | Level: Native

DevOps, CI/CD, cloud and others

AWS: aprox. 3 years of experience.

Azure Cloud: aprox. 2 years of experience.

Azure DevOps: aprox. 5 years of experience.

Bamboo: aprox. 2 years of experience.

Bitbucket: aprox. 5 years of experience.

Docker: aprox. 5 years of experience.

Git: aprox. 5 years of experience.

Jenkins: aprox. 7 years of experience.

Kibana: aprox. 3 years of experience.

Kubernetes: aprox. 5 years of experience.

SonarQube: aprox. 5 years of experience.

Project tools

Confluence: aprox. 5 years of experience.

Jira: aprox. 5 years of experience.

Microsoft Teams: aprox. 5 years of experience.

Scrum: aprox. 5 years of experience.
