SUMMARY

Senior Software Engineer with over 10 years of experience in software development, currently at Tenth Revolution Group for a leading chemical sector company. Skilled in event-driven software development using Java, Spring Boot, Kafka, and Azure Service Bus, with strong DevOps expertise in Docker, Kubernetes, and Azure DevOps. Experienced in frontend development with Angular and React, and dedicated to quality assurance through TDD and end-to-end testing. Fluent in Spanish and Galician, with upper-intermediate English proficiency.

EXPERIENCE

Senior Backend Engineer

Tenth Revolution Group   **June 2022 – Present, Madrid, Spain (Remote)**

· Designed and developed scalable, event-driven backend services for global cosmetics and healthcare companies using Java, Spring Boot, Azure Service Bus, and PostgreSQL/MongoDB.
· Leveraged Azure Cloud and AI Cognitive Search to enhance performance and scalability.
· Managed containerized applications with Kubernetes and Docker while overseeing CI/CD pipelines using Azure DevOps for efficient deployments.
· Ensured code quality and security with SonarQube/PMD and TDD or JUnit.

Tech stack: Azure Cloud, Azure Cognitive Search, Azure DevOps, Bamboo, Bitbucket, Confluence, Docker, Git, Helm, Hibernate, JUnit, Java, Jira, Kubernetes, Maven, Microservices, Microsoft Teams, Mockito, MockServer, PostgreSQL, Postman Tests, Scrum, ServiceBus, SonarQube, Spring Boot, REST, Terraform.

Senior FullStack Software Engineer

Neo9 Iberia   **December 2021 – June 2022, Madrid, Spain (Remote)**

· Led the analysis, design, and development of insurance portals, improving system functionality and user experience.
· Developed microservices and frontend components using Java (8-11), Spring Boot, Angular, and MongoDB.
· Managed the full software development lifecycle, from requirement gathering to deployment.
· Automated continuous integration pipelines with GitLab, Jenkins, Docker & Kubernetes to streamline development processes.

Tech stack: Angular, AWS, Confluence, Docker, Git, GitLab, Gradle, Helm, Hibernate, Java, Jenkins, Jira, JUnit, Kibana, Kafka, Kubernetes, Maven, Microservices, Mockito, MockServer, MongoDB, PostgreSQL, Postman Tests, RabbitMQ, Scrum, SonarQube, Spring Boot, REST.

Senior FullStack Software Engineer

Dimensiona   **July 2015 – December 2021, Santiago de Compostela, Spain (Hybrid)**

· Contributed to both backend and frontend development, utilizing technologies like Java (Spring Boot, Spring MVC, Hibernate), Ruby on Rails, and JavaScript/jQuery.
· Led the migration of legacy web applications, developed new features, and maintained systems, ensuring seamless user experiences and robust architecture.
· Designed and implemented solutions across various layers of the application stack using Kafka, RabbitMQ, PostgreSQL, MongoDB, and ReactJS.
· Adopted DevOps practices with Docker, Kubernetes, Git, Bitbucket, and Jenkins to streamline deployments and improve system reliability.

Tech stack: AWS, Azure DevOps, Bitbucket, Confluence, Cypress.io, Docker, Git, Gradle, Hibernate, JUnit, Java, Jenkins, Jira, Kafka, Kibana, Kubernetes, Leaflet, MapBox, Maven, Microservices, Mockito, MockServer, MongoDB, OpenWiki, PostgreSQL, RabbitMQ, React, Ruby on Rails, Scrum, SonarQube, Spring Boot, Axis2, TypeScript, JSP, MySQL, Oracle, REST, SOAP, Spring Boot, Subversion.

Junior Developer

VIEWNEXT   **September 2014 – July 2015, Ourense, Spain**

· Developed desktop and web applications for Banco Popular and its subsidiaries, enhancing software solutions for the banking industry.
· Gained extensive experience with IBM's proprietary technologies, contributing to efficient and secure application development.
· Focused on building user-friendly software tailored to meet the specific needs of banking clients, improving overall user satisfaction.
· Collaborated with cross-functional teams to ensure high-quality deliverables and adherence to industry standards.

Tech stack: Bank industry, BTT, CA Harvest SCM, IBM, RAD, Javascript.

EDUCATION

Master, Teacher training in Secondary and Upper Secondary School Education, Voc. Training (IT specialty).
Universidad Internacional de La Rioja (UNIR) · La Rioja, Spain · jun. 2021

Vocational Training, Technician in computer applications development
IES San Clemente · Santiago de Compostela, Spain · 2020

Computer Engineering
Universidade de Vigo · Ourense, Spain · 2014

Vocational Training, Technician in Computer Systems Administration
IES Antón Losada Diéguez · 2006

CERTIFICATIONS

Apache Kafka for Developers using Spring Boot (2024)
Udemy · 2024

DevOps Foundations: DevSecOps
LinkedIn · 2024

SOLID and Clean Code principles. Write quality code (2024)
Udemy · 2024

Software Testing Professional
LambdaTest · 2024

SKILLS

Hard Skills

Programming Languages & Frameworks:
Java, Spring Boot, Spring MVC, Ruby on Rails
Hibernate, Kafka, RabbitMQ, ServiceBus
Cloud & DevOps:
Azure Cloud, AWS, Azure DevOps, Kubernetes, Docker
CI/CD tools: Jenkins, Bamboo, Git, Bitbucket, Helm, Terraform
SonarQube, Postman Tests, MockServer, Mockito
Databases:
PostgreSQL, MySQL, Oracle, MongoDB, Azure Cognitive Search
Frontend Technologies:
Angular, React, Typescript, Cypress.io, Javascript, jQuery, JSP, Bootstrap
Microservices Architecture
Testing:
JUnit, Cypress.io, Mockito, Postman
Project Management & Collaboration:
Jira, Confluence, Trello, Microsoft Teams, Scrum, Slack

Technical Skills

Backend Development:
Extensive experience in designing, developing, and maintaining robust backend systems for various industries, including cosmetics, healthcare, and telecommunications.
Frontend Development:
Full-stack experience with Angular and React, contributing to user-friendly and scalable frontend applications.
DevOps & Cloud Computing:
Deep expertise in cloud technologies (Azure, AWS), Kubernetes, and containerization with Docker.
Microservices Architecture:
Expertise in developing microservices-based applications using Spring Boot, Kafka, and RabbitMQ.
Database Management:
Proficiency in handling relational and NoSQL databases, such as PostgreSQL, MySQL, Oracle, and MongoDB.

Soft Skills

Communication:
Strong verbal and written communication skills in English, Spanish, and Galician. Experience working in a multicultural, global environment.
Teamwork & Collaboration:
Proven ability to work efficiently in cross-functional teams and collaborate with stakeholders from diverse backgrounds.
Problem-Solving:
Excellent analytical and problem-solving skills, with the ability to address complex technical challenges and provide effective solutions.
Leadership & Mentoring:
Experience in leading teams, mentoring junior developers, and ensuring the successful delivery of high-quality code within project timelines.
Adaptability & Learning:
Commitment to staying updated with the latest industry trends and technologies, continuously enhancing technical skills.
Organization & Time Management:
Capable of managing multiple tasks efficiently, meeting deadlines, and delivering projects on time.
